SUMMARY

Information Technology graduate and Cum Laude awardee with internship experience at VastResult Inc. Skilled in PHP, JavaScript, MySQL, HTML, and CSS, with hands-on practice in backend and web development. Currently expanding expertise in Bootstrap and Laravel to strengthen backend capabilities and grow into a versatile software engineering role.

PROFESSIONAL EXPERIENCE

Intern – WordPress Developer **Feb 2026 - May 2026**

VastResult Inc. | Santa Maria, Bulacan, Philippines | Hybrid

- Developed and maintained company web pages for security and infrastructure services
- Enhanced UI layout and readability by optimizing banners, buttons, and typography
- Created SEO-optimized content and graphics to improve search visibility

PROJECT EXPERIENCE

A Web-based Event Management System for Mamyr Resort and Events Place in San Ildefonso Bulacan **Mar 2025 - Dec 2025**

Bulacan Agricultural State College | Capstone Project | Backend Developer

- Designed and implemented a web-based system for managing event reservations, hotel accommodations, and resort pool bookings.
- Developed backend functionality to automate booking processes, reducing manual steps by 25–30%.
- Developed a web application with PHP, JavaScript, MySQL, HTML, CSS, and Bootstrap.

Grade Weighted Average (GWA) Calculator **Jun 2025**

- Built a web-based calculator to compute Grade Weighted Average using JavaScript logic.
- Designed a simple, user-friendly interface for students to input grades and units.
- Created a functional GWA calculator using JavaScript, HTML, CSS, and Bootstrap.
